

Dancing Alone

Infected Rain

Dancing alone

Slowly, softly suffocating
I feel my lungs aching and burning
The painful fullness of my lips
The whipping savage music bits

(Pre) I feel the madness on my tongue
From your smell I feel so drunk
I'm curling and dancing barefoot
Itching but feeling damn good!

(Chorus) My hands are tight - I'm begging for your touch
My eyes are blinded - I want to see your light
You perfect knowing fingers - fire on my skin
I feel your gaze and hunger - I'm drowning in your scent

My blood is heating in my veins
Desire unfurls in a wild hurricane
I'm crying! I'm smiling for you
I'm dancing! I'm fighting for you

(Break) I want you to breathe me in, never ever breathe me out
Blind me, hurt me, burn me from inside
Grip me, bite me, make me scream out loud

(Chorus)

I can't stop dancing, afraid to move
I feel so empty, I feel so full
Arching my chest I wish you were here
Trembling from desire, I can feel you, dear!

(Pre)

(Chorus)
