

Symphony of Trust

Infected Rain

The wolves of doom are howling at

Loving without trust means inviting the depression
Anxiety being a dreadful evil reveal
Sucking you into a nightmare with no way out
A cold stone the wolves of doom are howling at

Trust gives confidence and purpose
It gives peace of mind and balance
This game can be tricky and frantic
Commit, it's all or nothing
It's all or nothing

Loving without trust means inviting the depression
Anxiety being a dreadful evil reveal
Sucking you into a nightmare with no way out
A cold stone the wolves of doom are howling at

So remember
Well orchestrated feelings can create
A symphony that can become the greatest vanity
Because affection weights too much

Real freedom and harmony involves trust and obedience
Trust is a fruit of a relationship in which you know you are loved
Gives confidence and purpose
It gives peace of mind and balance

Because affection weights too much, it wears off so fast
Once you have it, you are taking it for granted
Loving without trust means inviting the depression
Anxiety being a dreadful evil reveal
Sucking you into a nightmare with no way out
A cold stone the wolves of doom are howling at

Sucking you into a nightmare with no way out
A cold stone the wolves of doom are howling at

The wolves of doom are howling at
