

## With Me

## Infected Rain

Come with me  
Let's drive to the sunset  
Look at me  
I'm sick, don't you see that?  
I want to run, run from the past  
I want to die, die and forget  
Forget me  
I'm weak and useless  
Don't be scare of me  
I'm full of madness

Listen to me  
My soul is still breathing  
Help me  
Can't you see that I'm living

Listen to me  
My soul is still crying  
Help me  
Can't you see that I'm dying?

I'm lying here alone on the floor  
I'm still afraid  
Don't want to suffer anymore, anymore

Come with me  
Let's hide in the darkness  
Look at me  
I'm getting thoughtless  
I want to fly, fly and leave all back  
I want to die die and forget.  
Forget me  
I'm weak and useless  
Don't be scare of me  
I'm full of madness

Listen to me  
My soul is still breathing  
Help me  
Can't you see that I'm living

Listen to me  
My soul is still crying  
Help me  
Can't you see that I'm dying?

I'm lying here alone on the floor  
I'm still afraid  
Don't want to suffer anymore, anymore

Help, help me  
Help me to survive  
Save, save me  
Save me from the light

Listen to me  
My soul is still breathing

Help me  
Can't you see that I'm living

Listen to me  
My soul is still crying  
Help me  
Can't you see that I'm dying?

I'm lying here alone on the floor  
I'm still afraid  
Don't want to suffer anymore, anymore
