

A privileged section, a new among the clones  
None of us is secure, they can steal who they want  
Face of mine, face of you, faster than light reflection  
Masters of espionage and annoying desinformation

I'll kill you and you'll kill me, but there's no guarantee  
If it's lie or if it's true, horrendous ability

D'you have a scratch? Well, I'm gonna devitalize you  
Trust is a relic and mistake should be fatal too..

CyClones assault... perpetual imbroglio  
A lethal chaos... hard times to undergo...

Horrendous ability... CyClones  
Don't trust me... even I am not so sure  
Fake and versatility... CyClones  
I can't trust you... Or are you sure?
