

Shapeshifting / Unidentification

Ingrowing

Shape dancers of faces, so sick transformation
As DNA imprints are precisely applied to make new life
Shapeshifting process, fingerprints and retinae
Original or copy, impossible identification

New flesh, unidentified
It's you or not, high technology pride.

Fingerprints are carved, process of maturation
Structure modified, sapiens code translation

New flesh to rise, unidentified
It's you or not, high technology pride.

Shifting of shapes...

Shifting the shapes, unidentification
Shifting the shapes, a new population...
