

I Miss You

Inhabited

I feel lost and I feel fear
Of the words that I would say if you were here
Abrest stands between us, life stands between us
And the memories still fading away

I look up at the stars in the sky
And I wonder where you are

I miss you, I miss you so bad
And it hurts to remember you
I don't want to forget you
And I wish I, I wish I could bring you back
I miss you, I miss you so bad

I feel cold and I feel numb
I still find it hard to face you're gone
I know that we'll meet again
One day I'll kiss your face again
In a place where there's no suffering or pain

I look up at the stars in the sky
I know where you are

I miss you, I miss you so bad
And it hurts to remember you
I don't want to forget you
And I know now you're in a better place
But I miss you, I miss you so bad

There's so many things I wish I would've said
But one day I know I'll see your face again
And we'll talk just like we used to
Just like we used to

I know we'll never fade
I know we'll meet again
I won't forget your face
I know where you are

I miss you, yes I do
I miss you, I miss you so bad
