

One Show

Inhabited

Staying awake all night
As we are sleeping in a parking lot again
Everybody wants to hear it
Everybody wants to know
What it's like, what it's like
Can you take it here we go

It's one show I've got the mic I've got the floor
One time you hope they don't walk out the door
One show, one time you hope they see it
You never know, you never know

Driving in circles again
How are we flying but we're back where we began
Everybody wants to hear it
Everybody wants to know
What it's like, what it's like
Can you take it here we go

One show, one night we plant the seeds we hope they grow
One show, one life we plant the seeds we hope they grow

It's one show I've got the mic I've got the floor
One time you hope they don't walk out the door
One show, one time you hope they see it
You never know, you never know
