

# Hands Up

Inna

What we do we never tell  
My body is going crazy, wild thing  
Riding like a carousel  
I let your body see it with a bang bang

Step by step, I got you breaking  
Walls up high but Imma pull them down  
Take that heart and make it vacant, baby  
Gotta surrender yourself to the bounce

Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through  
Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through

I know the places where you hide  
No matter where you go, boy, you'll be mine  
Cause I believe in you and I  
I let your body see with the bang bang

Step by step, I got you breaking  
Walls up high but Imma pull them down  
Take that heart and make it vacant, baby  
Gotta surrender yourself to the bounce

Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through  
Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through

No, we don't settle  
We're raising the level up higher  
No it ain't over  
We giving it all to the fire

Step by step, I got you breaking  
Walls up high but Imma pull them down  
Take that heart and make it vacant, baby  
Gotta surrender yourself to the bounce

Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through  
Hands up ready for the boom  
Never mind the rocket launcher talking about the tune  
You can hear us coming with the zoom  
Listen to the boom boom, we are breaking through
