

## Lights

Inna

I get whatever when I want to  
So baby I've been thinking about you  
And every moving it's a part two  
So Imma do it cause I got you

I always keep my options open  
You know I care for love and emotion  
But your body's calling on me  
But you make it hard for me

Lights  
Turn off the lights to be in the night  
I'm tryna see you walk aside  
Oh, don't know what's going on  
But I need you all alone  
Ain't no body around  
Just give me your body now

You keep me falling in a good way  
Round after round, then we replay  
I'm not gonna tell you what I might do  
Just come and meet me in the backroom

I always keep my options open  
You know I care for love and emotion  
But your body's calling on me  
But you make it hard for me

Lights  
Turn off the lights to be in the night  
I'm tryna see you walk aside  
Oh, don't know what's going on  
But I need you all alone  
Ain't no body around  
Just give me your body now  
...
