

Sunset Dinner

Inna

I want you to understand
I don't need some other men
It's true we fight so much, but let's do it again
Talking, fine I better bend, so

It's just an idea but
I have an invitation
Babe, in the name of love
Just the two of us and

Let's have a sunset dinner, like lovers do
I want a sunset dinner with you, you, you
Let's make some memories until the sun goes down
I want a sunset dinner with you, you, you

While I lose some precious time
Choosing rolls to harder time
It's better leaving past behind, yeah
Save the presents, speak her mind, so

It's just an idea but
I have an invitation
Babe, in the name of love
Just the two of us and

Let's have a sunset dinner, like lovers do
I want a sunset dinner with you, you, you
Let's make some memories until the sun goes down
I want a sunset dinner with you, you, you

Hold on to us inside
Say now what's on your mind, mind, mind
Another chance and no goodbyes
Us and a glass of wine

Let's have a sunset dinner, like lovers do
I want a sunset dinner with you, you, you
Let's make some memories until the sun goes down
I want a sunset dinner with you, you, you
