

I Love Girls

Inner Circle

G - for Good
I - they're in
R - that's right where love begins
L - for love
S - for Sweet that's for every girl we meet

Girls, i love girls
Girls, i love girls

I love the shy ones
The freak ones
The shelk ones
The meek ones

Some girls will change
When thing don't go right
Turn on that crazy energy
Mess witch your mentality

They love to dance
They love to play
They love to party
Every day

And when it's over
The loving is true
Before you recover
They'll walk out on you

Don't misunderstand them
Or ever doubt
They're so hard to live with
Even harder without.
