

# Forget My Name

Innocens

Welcome down there in the shadows  
We are hiding round our souls for centuries  
So learn the truth or never  
Know what to do forever

Whispered emotions to my „friend“  
Forget my name  
Promised devotion with no care  
Forget my name  
Forget my name

Slowly fallin' livin' danger  
The past is calling no need to wake up memories  
Just stay around and open eyes  
Face the truth however

Do you finally believe me  
Why I'm hiding lovely face behind the veil  
So learn the truth or never  
Know what to do forever
