

Life For Sale

Innocens

Can you still hear and see
That charm of harmony
Today I sold my life
I've sold them all I got

What's the problem?
What's your name?
And my heart does feel the same
What could I do to save
to bless it all just for you?

Do we both know at all
Whose life has gone away
Worrying head vain to waste
We'll see tomorrow dawn

What's the problem?
What's your name?
And my heart does feel the same
What could I do to save
to bless it all just for you?

You took me down my knees
It had to be my fall
Sold and lost to those
You love and hate at once

Come on you are here as I see
Why don't ya say hello to your steal
Come on and let go the one you need
Why don't ya grab my soul and disappear
