Life For Sale

Can you still hear and see That charm of harmony Today I sold my life I've sold them all I got

What's the problem? What's your name? And my heart does feel the same What could I do to save to bless it all just for you?

Do we both know at all Whose life has gone away Worrying head vain to waste We'll see tomorrow dawn

What's the problem? What's your name? And my heart does feel the same What could I do to save to bless it all just for you?

You took me down my knees It had to be my fall Sold and lost to those You love and hate at once

Come on you are here as I see Why don't ya say hello to your steal Come on and let go the one you need Why don't ya grab my soul and disappear Innocens
