Astral Path To Supreme Majesties

Inquisition

Far in the night sky a path is born Stars form the path and carry my soul Cosmic fire of the stars I ride High I rise as a master of skies

Lonesome realm where the spirits are dust Poison clouds are the breath of life

Tunnels of death are invisible wings Mystique moons are floating tombs

Black cosmic sea, I sing to thee Open the path, oh! Majesty

Infinite universe as
silent as death
In this coffin I lay to rest

Astral bodies guide me to the throne Now I have joined the cosmic crypts

Black cosmic sea, I sing to thee Open the path, oh! Majesty
