

## Dead Wrong

Integrity

What appeared to be so innocent  
Just a front to cover up your lies  
You had it all planned from the start  
Their loss is your gain  
You didn't think it over too clearly  
Because you were...  
Dead wrong  
No avoiding what must be done  
Fight to win fight to overcome  
You have no choice of what you can do  
Enjoy the pain as it seers through you  
There will be no second chances,  
No escape this time  
Go ahead and run  
There's no place you can hide  
We'll hunt you down  
So you know exactly  
How your prey felt  
Thought it was just a simple sport  
In my eyes you're just a murderer  
You don't kill for survival  
You kill for cruelty  
You went from being the hunter to being hunted  
You are dead...
