

Blame

Intwine

Someday I should decide
Will I go on, living this lie
Feels like we're lost in time
With memories best left behind
You don't need to say
This torment caused can't be explained
You don't deserve this pain
Not who I was
Sorry I've changed

You don't know me anymore
Come and treat me like a whore
don't you know youre too precious
To deal with this pain
And Im to blame

Please don't say what's on your mind
There's no real truth to find
If we only knew how to deal
With what I do
You'll find another way to wake and live
A brighter day
You don't deserve this pain not who I was
Sorry I've changed
