

## Cut Me Loose

Intwine

Might as well say it  
Might as well just be clear  
Why make it prettier  
If it keeps you near?  
I'm sick of you smilin' for me  
I'm sick of your face  
You smell is another to  
A dream filled with hate

Sometimes it feels like the light goes on too soon  
At times it seems I don't belong in the room  
It goes straight through when I don't know what to do  
I run and hide, and I end up blaming you  
You  
You

You see there's a wreck of me  
Why you still breathe?  
It's just an empty shell  
You're out me, in me  
And all of my secrets gone  
All of my faith  
I see you're disgusting me  
It's like being raped

Sometimes it feels like the light goes on too soon  
At times it seems I don't belong in the room  
It goes straight through when I don't know what to do  
I run and hide, and I end up blaming you

Let me go  
Cut me loose

Sometimes it feels like the light goes on too soon  
At times it seems I don't belong in the room  
It goes straight through when I don't know what to do  
I run and hide, and I end up blaming you

And I blame you  
And I blame you  
I blame you  
I blame you  
I blame you  
And I blame you  
I blame you  
And I blame you  
I blame you
