

## Jack in a Box

Intwine

Stuck on an island of sorrow  
Where you can't find your way  
Your body eternal darkness  
And there's no night and day  
It's a place where people get thrown into  
If they don't behave  
You cry for mommy and daddy  
But it's much too late  
Much too late  
Much too late

Straight ahead you see lights in the distance  
When you seem to fall  
You think there's hope, but yet they fool you  
They're the lights of the wall?  
You can try and claw your way out  
You can try and escape  
But my friend, just stop trying  
Cause it's much too late, late  
Much too late  
Much too late

Like a jack in a box  
You're tied down  
You drain (...)  
Never be free never believe me,  
The one that (...)  
Just suck like a (...) of dem  
(...) to get you, no way  
Just wipe off your smile  
run home and i'll take that to your grave  
(2x)

Much too late  
Much too late

Straight ahead you see lights in the distance  
When you seem to fall  
You think there's hope, but yet they fool you  
(They're the lights on the wall?)  
You can try and (claw) your way out  
You can try and escape  
But my friend, just stop trying  
If it's much too late, late  
Much too late  
Much too late
