

Hey! Listen derr, y'all
Keep ya dutty claws outta dis music!
Trust me, ya know well watta do, it seems!
Show'em what I mean!

And I don't care just what you say
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)
And this is my way anyway
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)

You say I don't fit
Well, there will always be a place for me
To live for real
It's either way you

And I don't care just what you say
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)
And this is my way anyway
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)

Forget what's real
..... how you feel
It's what, hahaha
.....

Use me, abuse me
Supposed to like it
I'm your puppet

See my face again
See my face again
See my face again
See my face again

And I don't care just what you say
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)
And this is my way .../and wait
(We na wan wait fe dem
I know we not gone change fe dem
Just read between the lines
Intwine just can't relate to dem)
