

# Today

Intwine

As the sun beats down on me  
And I look at everything,  
You gave me, babe, you made me feel  
Nothings seems to matter  
As we walk along the edge of what he wants now where to go

I have become my worst enemy  
Dont know why I lived so long anymore  
Catch me as I fall down the stairs  
Everyday

Shine on me before, you go away, one day  
Smile at me one last time before, before you go away today, today, today

Now its raining down on me  
I dont care cause we have seen it all together,  
You and I  
Staring at the shadows  
Dancing up and down the walls  
Of places we have been too long

I have become my worst enemy  
Dont know why I lived so long anymore  
Catch me as I fall down the stairs  
Everyday

Smile at me one last time before, before you go away today  
Smile at me one last time before, before you go away today, today, today

Today was the greatest day of all  
Today was the greatest day of all  
You smile at me before you go  
Before you go  
Before you go  
Before you go  
Before you go  
Before you go  
Eay!

Smile at me one last time before, before you go away today  
Smile at me one last time before, before you go away today, today, today
