

## Unconscious

Inveracity

She looks so innocent  
Now that she fades  
I will conquer this body

Motionless body lying  
Naked - Before me  
I awaited this for so long  
My sleeping beauty  
Violently penetrated  
Sexually abusing  
The unconscious

Lying defenseless  
Just one more whore to be victimized  
Body stands still  
She is unable to feel what I am feeling

Awaken from the slumber  
You see the scars I left  
A fantasy come true  
It was even better  
Than normal intercourse  
You were unable to react

Kidnapped, then drugged, raped  
Never to recover  
What a gruesome fate you've met  
I could not resist  
Traumatized, humiliated  
By this misfortune  
Treated like trash, no respect
