

## Cut Your Roses Down

INXS

And it comes down to this  
When you take a look  
Got to find a reason  
Find it out  
What the fuck it's about

All you lovers  
Take a look around  
Before they cut your roses down  
All they've got is bones and blood  
Don't they know that love is around

Make your way through the pain  
You've got no one to blame  
Put a rope around  
Rush into the ground  
All in the name of love

All you lovers  
Take a look around  
Before they cut your roses down  
All they've got is bones and blood  
Don't they know that love is around

You meet the devil within  
And that's a name not a friend  
Comes around knocking down doors  
And when you let him in  
Gonna burn again

All you lovers  
Take a look around  
Before they cut your roses down  
All they've got is bones and blood  
Don't they know that love is around

All you lovers  
Take a look around  
Before they cut your roses down  
All they've got is bones and blood  
Don't they know that love is not around
