

# Move Forward

Iration

Nobody said that it would be easy  
No one said that life would be fair  
Took a long time to find my own way  
Weathered the storm and I'm not going anywhere

I wanna see the colors of the morning sky  
Ocean breeze has got me feeling so high  
I can hear the rain falling down on my roof  
Look in the mirror and I know what to do

Move forward  
Back on your feet again  
Let's take a walk outside  
Move forward  
Feel the sun on your skin my friend  
Let's leave the grey clouds behind

I can see for miles out there before me  
The fog has lifted my head is clear  
For so long I couldn't see the beauty around me  
My eyes are open and now I know there's nothing to fear

I wanna see the colors of the morning sky  
Ocean breeze has got me feeling so high  
I can hear the rain falling down on my roof  
Look in the mirror and I know what to do

Move forward  
Back on your feet again  
Let's take a walk outside  
Move forward  
Feel the sun on your skin my friend  
Let's leave the grey clouds behind

Move forward  
Let's take a walk outside  
Move forward  
Let's leave the grey clouds behind

I wanna see the colors of the morning sky  
Ocean breeze has got me feeling so high  
I can hear the rain falling down on my roof  
Look in the mirror and I know what to do  
Move forward  
Back on your feet again  
Let's take a walk outside  
Move forward  
Feel the sun on your skin my friend  
Let's leave the grey clouds behind

Move forward  
Let's take a walk outside  
Move forward  
Let's leave the grey clouds behind

Move forward
