

Falling In Love

Irene Cara

Falling in love is just the sort of thing
That we should do
Like actors on a stage
Let's take our cue
And fall in love

Falling in love is just the sort of thing
I had in mind
My feelings seek the words
That can define
Falling in love

In the past. I had made the mistake
Of thinking that love was something to find
When all the time
Love was something my heart had to
Make, and

Falling in love is
The only kind of wish that I could make
You'd blow out all the candles on my cake
If you'd only say
You were falling in love

In the past. I had made the mistake
Of thinking that love was something to find
When all the time
Love was something my heart had to
Make, and

Falling in love is
The only kind of wish that I could make
You'd blow out all the candles on my cake
If you'd only say
You were falling in love
