

## Girlfriends

Irene Cara

Hey, you know Wanda, Syreeta, come here  
I wanna talk you you too. Bonnie? Charloe? Joyce?  
Carole? well. I gathered you all here today  
To tell you something that's been on my mind  
Well it kinda goes something like this

Let me be your guide through the state of confusion  
I'll get you safely to the other side  
But before I go jumpin' to any conclusions  
Giving you one last chance to make  
Things work out right (cause)

Girlfriends stick together  
Through the good times and the bad  
You know. girlfriends stick together  
They don't make each other sad  
If they're girlfriends  
Say, girlfriend! if they're girlfriends

Chasing my old man at every opportunity  
That's not the way a girlfriend plays her hand  
Talk about bad times, this is the worst that it could be  
Seeing you through this once but never again (cause)

Girlfriends stick together  
Through the good times and the bad  
Yeah, girlfriends stick together  
They don't make each other sad  
If they're girlfriends  
Say, girlfriend! hey yeah (if they're really girlfriends)  
She's there all the time (if they're girlfriends)

Talk about bad times, this is the worst that it could be  
Seeing you through this once but never again (cause)

Girlfriends stick together  
Through the good times and the bad  
You know. girlfriends stick together  
They don't make each other sad  
If they're girlfriends

The girl's alright with me  
You know the girl's alright
