

Slow Down

Irene Cara

Well, I heard it's been said life's just a game,
A strange mystery with no clues to follow.

I heard it's been said life's just a dream
To which you can never awake.
We live it's so real, what else can you do?
For it's spent with whatever you make.
Might as well

Slow Down, enjoy the things that make you smile
And laugh out loud.
Come on now, Slow Down
Wasting time on all the pain and dreams be found.
When love has always been spreading around.

I find myself longing for the things I can't have,
Feeling oh so secure with sadness.
Never having the time to see what's inside me.
Branching to reach some kind of madness.

Guess I might

Slow Down, enjoy the things that make you smile
And laugh out loud.
Come on now, Slow Down
Wasting time on all the pain and dreams be found.
When you know love has always been spreading around.

Slow Down.
Why don't you Slow Down?
Oh, oh, ohoh, woah.

Slow Down, enjoy the things that make you smile
And laugh out loud.
Come on now, Slow Down
Wasting time on all the pain and dreams be found.

Slow Down, enjoy the things that make you smile
And laugh out loud.
Come on now, Slow Down
Wasting time on all the pain and dreams be found.

Slow Down.
