

# Cover The Sun

Iron Fire

Brothers are shaking  
It's my awakening  
My head is spinning around  
They will hit the ground the hammer will pound  
My brothers are fighting  
The keep we're defending  
The battle is bloody red  
My mind is set the steel they will get

Pain is my friend from heaven I descend  
I feel the power embracing me

Legions are falling  
When death comes crawling  
My god is calling  
Blood will run  
Cover the sun

My enemies are dying  
The women are crying  
The blade is going in  
It's not a sin I know we will win  
It's time for the gathering  
Today the dead will sing  
Arrows are coming down  
Will we die when they hit the ground

Pain is my friend from heaven I descend  
I feel the power embracing me

Legions are falling  
When death comes crawling  
My god is calling  
Blood will run  
Cover the sun

Strike down the unbelievers  
Tonight they'll be deceivers  
Of the curse of the dark empire of the undead

Pain is my friend from heaven I descend  
I feel the power embracing me

Legions are falling  
When death comes crawling  
My god is calling  
Blood will run  
Cover the sun

We cover the sun

And the blood will run

We cover the sun
