

# Out of Nowhere

Iron Fire

You are the one that keeps me going  
It's like a fire that helps me grow  
And in the dark you light my way  
It's you and me until judgement day

In the darkness I confess  
In the torment of my loneliness  
You're always there

Straight out of nowhere  
You lift me up high  
A call from a silent prayer  
Never say goodbye  
Out of nowhere

Out of nowhere

Always been there since I was young  
It's like an angel that keeps me strong  
And when it's time to end it all  
I know I can count on you call

In the darkness I confess  
In the torment of my loneliness  
You're always there

Straight out of nowhere  
You lift me up high  
A call from a silent prayer  
Never say goodbye  
Out of nowhere

Straight out of nowhere  
You lift me up high  
A call from a silent prayer  
Never say goodbye  
Straight out of nowhere  
You lift me up high  
A call from a silent prayer  
Never say goodbye  
Out of nowhere

I'll never let you go
