

Steel Invaders

Iron Fire

Vengeance will be mine
Riders from hell

Black on black

The magic will never cease
The metal troops will increase
Believers of the holy flame
Fools are no part of the game

Nothing is gonna stand in our way
We fight forevermore
Until the last man will fall
Time to start the war

Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air
Unbeliever's nightmare
Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air
Riders from hell
Steel invaders

People try to put us down
We hold the key and the crown
The crusade will never end
To the kingdom we assent

Nothing is gonna stand in our way
We fight forevermore
Until the last man will fall
Time to start the war

Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air
Unbeliever's nightmare
Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air
Riders from hell
Steel invaders

Nothing is gonna stand in our way
We fight forevermore
Until the last man will fall
Time to start the war

Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air
Unbeliever's nightmare
Raise the metal fist in the air
Brothers everywhere
Raise the metal fist in the air

Riders from hell
Steel invaders

Raise the metal fist in the air
Raise the metal fist in the air
