

# Seek and Destroy

Iron Savior

[Words & Music by Sielck]

[Beyond the gate lies a universe of darkness and decay. In millions of years the Shadow has extincted and exploited this entity almost completely, and so they are questing for new hunting grounds. It is necessary to find and disable the gate, so the mission is to seek and destroy.]

Exploitation - Infestation  
Life's extincted - Stars eclipsed  
No light in the black

Dark encounter - Alien frontier  
Suicide mission - Sacrificed  
We'll never come back

Kill - we came to kill the night  
We're the warriors of light  
Fight - we'll fight the evil force  
We gonna get to the source

Seek and destroy  
Into the shadow we ride  
Riding side by side  
Seek and destroy  
Defiant we'll attack  
Seek and destroy  
The center of the black

Termination - Extirpation  
Grim incursion - fulfilling the mission  
By fire and sword  
Hell - we're hiding underground  
To Hell we are bound  
Die - until the final breath  
We ride in defiance of death

Seek and destroy...

[Solo Kai - Solo Piet]

Black will be tainted by blazing red  
The forces of darkness will burn  
We gonna get to the center tonight  
And we shall never return  
Seek and destroy...
