

Believe in Me

Isaac Hayes

You know baby, I've been watching you lately
All you do is sit and stare
Silently in your chair
You never say a word
Are you upset about something you've heard, or
Is it that you're upset with me because
At this point in time in my life
I haven't reached the level of where you think I should be
I'm the first to admit things haven't gone so well, you know
Like we planned when we first got together
But sometimes you have to go through hell
Before things can get better
You and me together, we're very strong
Let's not lose faith in each other when things go wrong
You gotta hang in there baby, hang in there

When the problems come
One by one
Believe in me
Whatever it is, we can overcome
Believe in me
I'll always protect you
I'll fight the whole world if I have to (I'll fight the world for you)
I'll do whatever I have to do
(And I'm satisfied) I'm satisfied
Knowing you're by my side
'Cause I can heal you

Some other girl might try to tempt me sometime
But believe in me (Believe in me)
We can't survive with suspicious minds
Believe in me (Believe in me)
We're a winning combination
We don't need no separation
If we did, my whole life would be through
As the days come and go
My love grows and grows
I believe in you
When friends are gone (Believe in me)
You'll never be alone (Believe in me)
I'll right here (I'll be right here)
To kiss away every tear (Believe in me)
I'm your man, your lover
And your friend, through thick and thin

Now you heard how I feel, and I promise it's real
Believe in me (Believe in me)
I'll stay strong and never do you wrong
Believe in me (Believe in me)
Let's keep our hearts together
And things will get better, together
We can make it through
I'm not in suspense, I've got confidence
'Cause I believe in you
Believe in me, believe in me
Whenever you're down, I'll always be around
Believe in me, girl (Believe in me)

You've gotta believe in me (Believe in me)
