

We've Got A Whole Lot Of Love

Isaac Hayes

We may not have a lot of money
And every day may not be so sunny
I'm your lover and you're my honey
We've got a lot of love
We may not have the latest fashions
Our car may not be the center of attention
Honey, in each other's arms we got satisfaction
We've got a lot of love

(We've got a whole lot of love)
When the pressures of my heart
Almost get me down
It's so good to know that you're so close around
With a kiss and a smile
You bring me so much joy
I'm as happy as a child
With a christmas toy

We may not have a lot of money (Everyday)
And every day may not be so sunny (I'm your lover)
I'm your lover and you're my honey
We've got a lot of love
We may not have the latest fashions
Our car may not be the center of attention (Hold me, baby)
Honey, in each other's arms we got satisfaction (We got it, we got it
, we got it)
We've got a lot of love

(We've got a whole lot of love)
Last week, girl friends invited you to go somewhere
But you had to take a rain check
I couldn't buy you something new to wear
But you never complain
Said you understand
Said the Lord will make a way
You're really sticking by your man

We may not have a lot of money
And every day may not be so sunny
I'm your lover and you're my honey
We've got a lot of love
We may not have the latest fashions
Our car may not be the center of attention
Honey, in each other's arms we got satisfaction
We've got a lot of love
