

Wishful Thinking

Isac Elliot

You tell me stop, you tell me go
Show me a sign just let me know
'Cause loving you girl is like rolling the dice, never know what I'm gonna get
Because you're hot then you're cold then you're left then you're right
Wanna hear you say it

You just keep me wishful thinking
Girl just tell me what you're feeling
Still I'm holding on believing
Someday, someday you'll talk to me,
Someday you'll, you'll give it all to me
Till then I'm just wish, wish, wish, wish, wish, wishful thinking

I'll give you time, I'll give you space
Make up your mind, 'cause I just can't wait
'Cause loving you girl is like rolling the dice never know what I'm gonna get
'Cause you're shy then you're bold then you're yes then you're no
Girl I always gotta guess

You just keep me wishful thinking
Girl just tell me what you're feeling
Still I'm holding on believing
Someday, someday you'll talk to me,
Someday you'll, you'll give it all to me
Till then I'm just wish, wish, wish, wish, wish, wishful thinking

Girl you got me confused all I really want is you
I'll meet you where you at
Don't do me like that...

You just keep me wishful thinking
Come on, tell me what you're feeling
Still I'm holding on believing
Someday, someday you'll talk to me,
Someday you'll, you'll give it all to me
Till then I'm just wish, wish, wish, wish, wish, wishful thinking
