

Tapping Out

Issues

All this bullshit got me in a headlock
With the blame and the names that you call me
And when you know you're wrong, then you're sorry
Bitch, I had a long day back up off me
You get to spitting all up in my face
Bout to say some shit that we just can't erase
My heart is moving at a fast pace
And now the gloves off I'm against the ropes
I wanna break it off but then I choke
Someone call the referee
Take the pressure off of me
Now you're popping off with the low blows
So I'm tapping out now
Suffocating can I get out
All this drama's breaking me down
So I'm tapping out now
Weight is getting heavy ooh
Tried to make it one last round
But I'm tapping out now
I thought we had a deal we would start over
Put it all in the past, getting older
But you're taking all these shots at me
I warned ya I'm tired of this pressure on my shoulders
And now the gloves off I'm against the ropes
I wanna break it off but then I choke
Someone call the referee
Take the pressure off of me
Now you're popping off with the low blows
So I'm tapping out now
Suffocating can I get out
All this drama's breaking me down
So I'm tapping out now
Weight is getting heavy ooh
Tried to make it one last round
But I'm tapping out now
I trusted you If only I could see
Wishing for your love was so foolish of me
Acting like you're somebody I don't know
And now you're somebody I don't know
Can you say you tried, truly?
I trusted you, how fucking foolish of me
So I'm tapping out now
Suffocating can I get out
All this drama's breaking me down
So I'm tapping out now
Weight is getting heavy ooh
Tried to make it one last round
But I'm tapping out now
