

Pandora

Italobrothers

I see a light in the darkest night
It's coming closer moving side to side
I try to receive it's coming up so fast
I can't believe

Do I see what I see
And do these girls try
To enter Pandora
Now they're passing by
Show me these girls again
They are like a hurricane
Running through my mind

They jump jump around to the IB Sound
These girls know how to party
They jump around, they jump around
They came all the way to

Pandora to Pandora
Pa Pa Pa Pandora
Here they come now
Here they are
Screaming out loud for Pandora

The people are depending on an escape (Pandora)
That makes the unreal seem beautiful
And reality of life seem unnecessary

27 girls enter a new world
That's scary beautiful phenomenal
These girls are the sh*t
Hot material like a miracle

They jump jump around to the IB Sound
These girls know how to party
They jump around, they jump around
They came all the way to

Pandora to Pandora
Pa Pa Pa Pandora
Here they come now
Here they are
Screaming out loud for Pandora

They jump jump around to the IB Sound
They jump jump around to the IB Sound

Jump to the beat
