

# Tonight

Itchy Poopzkid

A broken heart - a chaos life  
it's never ending  
you're getting cold and teary-eyed

Your whole world is turning gray  
but no one's sending someone to put it aside

Tonight I'll be right by your side  
turn on the sounds and blinding lights...

Oh tonight, we're gonna leave it all behind  
you and I will be alright  
bring them colors in we'll prove that black is white  
you and I will be alright - tonight

So what are you looking for in these ruins  
you have been in here before

Let it be - oh let it go  
drink it up now  
let's get ready for the show

You'll be the first to know  
As long as music plays we're not alone  
now all I do is wish I could pretend  
this ecstatic night would never end
