

# Blood and Gold

Ivanhoe

I saw the troops are fighting  
Crying out for war  
The holy cross is driving me  
Straight towards the shore  
God paved our way of wisdom  
To kill the godless souls  
But all the voices in my head  
Want me to behold  
Blood Resurrection  
The beast inside me Gold  
The deception  
The force behind us will keep this hell alive  
Blood and gold  
See the angels falling down  
Burning in the fields  
Pain or hope is no longer in our hands  
Lord please set me free  
Oh oh oh oh oh  
I came across the ancient writings  
Saw it on the wall  
I ever thought this will be over,  
Now we ve gone to far  
Blood is blood and gold is gold,  
I was ever told  
Charging through the enemies  
This is who we are  
Blood  
Resurrection  
The beast inside me  
Gold  
The deception  
This sword in my hands will keep myself alive  
Blood and gold  
See the angels falling down  
Burning in the fields  
Pain or hope is no longer in our hands  
Lord please set me free  
Blood and gold  
See the angels falling down  
Burning in the fields  
Pain or hope is no longer in our hands  
Lord please set me free  
In good faith we left  
And entered the sea  
For kingdom and glory  
We were proud to be  
On the journey of honour  
Into the unknown,  
And all that remained  
Is blood and gold  
We never believed it  
Murder and death  
The good pave we had  
Is no longer our path  
They re raping these women, children and men  
Until there is no one left  
Just blood and gold
