

# Into The Realm Of Unknown

Ivanhoe

There are no more boundaries wires over wall  
Reach yourself a fantasy  
And climb the winding road  
Take my hand let's go

It's you that's shining bright  
Ascending in the sky  
Come real near and feel my fingers  
Grasp your heart  
Hold me close don't let go  
No need for explanation following inspirations  
Together heart and soul  
We'll make it up as we go  
A journey without an end

I will be a part of all your fantasies  
Close your eyes and bring the vision into sight  
Don't trust the assents  
Of your senses sharpening  
And together we'll decide what's wrong or right  
The world of imagination sows of inspiration  
Into the realm of unknown  
There's no happy end no time to spare  
We'll make it up as we go  
I will be a part of all your fantasies  
Close your eyes and bring the vision into sight

Don't trust the assents  
Of your senses sharpening  
And together we'll decide  
What's wrong or right  
No need for explanation  
Following inspirations  
Into the realm of unknown  
A journey without an end  
We'll make it up as we go

Reopen the door don't cry no more  
It's time to take a journey  
On a long and winding road  
Into the realm of unknown
