

Midnight Bite

Ivanhoe

I can feel it in my veins
Feel the pounding something strange
Someone s calling me I hear it far away
See those shadows in the dark
Waiting for the final spark
I am wondering will this be my final day
Come join my life, come with me
Praising the night, praise the night again
Leave all behind, don't try to fight
Let's free your mind, enjoy the midnight bite
Now his hands are grabbing me
I feel his nails deep in my flesh
I better close my eyes
Don't wanna see his face
He pushes me down to the ground
All I see is blood around
And his bite gives me the immortality
Come join my life, come with me
Praising the night, praise the night again
Leave all behind, don't try to fight
Let s free your mind, enjoy the midnight bite
Enjoy the midnight bite Midnight bite
