

Ride

J. Holiday

I like it, I like the way your lips feel
Kisses sweeter than a honey bun
I want it, I want you naked in the bed
Silhouette by the candlelight, yeah
It's been a long day, you had it rough
Come let me take all of that pressure off your mind
I'll give you something else to focus on
Hope you not afraid of heights, oh

It's that love rollercoaster, babe, show me that you know how t
o ride
We ain't gotta say too much, just let our bodies do the talking
tonight
Swear I see a piece of heaven every time I put your legs to the
sky
Hold on tight, and just ride, ride, ride

Only thing on my mind is pleasing you
Making music with your body, you know I love the sound
Swimming in your water, I'm deep in you
Won't come up till you cum, won't stop unless you need to
Looking at that arch, it's a wonderful sight
We can get as nasty as you want to
Promise I'ma give you the time of your life
I really hope you not afraid of heights

It's that love rollercoaster, babe, show me that you know how t
o ride
We ain't gotta say too much, just let our bodies do the talking
tonight
Swear I see a piece of heaven every time I put your legs to the
sky
Hold on tight, and just ride, ride, ride

How's it feel to win the grand prize (how's it feel)
Cause you're not the only one winning here
And if I gave you this whole night
You're the right size, you're the right height
Rip your ticket open, step inside and take this ride (take this
ride)

It's that love rollercoaster, babe, show me that you know how t
o ride (Holiday)
We ain't gotta say too much, just let our bodies do the talking
tonight (we can let our bodies do the)
Swear I see a piece of heaven every time I put your legs to the
sky
Hold on tight, and just ride, ride, ride

(We can let our bodies do the)
