

So Close

J Rice

What good does it do ya
When you never tell me nothin girl
And everytime that I ask you
What the problem is..
You say "nothin".. "Don't worry bout it"
"It don't concern you, so just return to
What you were doin'.. before I met you"
Damn!
I never knew you could be so cold..
I still remember when we were

So close
You would say please don't leave
Then I'd start to get up but you were holdin me
So close
I never thought that you would go
Girl I took you for granted,
Now I'm missin
When we were
So close
Closer than anything, anyone
Girl you know that we were
So close so close so close
So close so close so close...

And your...body kept tellin me
You wanted me
Unfortunately, you don't listen no..
Your mind was confusin you
Sayin to never...
Trust him...hmm
I said "forget you
And just return to
What you were doin
Before I met you"
Damn!
I never knew I could be so cold
But I still remember when we were

And maybe it's for the best
You and I...would never last
You were young
I was a fool
But I can't stop thinkin bout..when we were
