

# You Know My Name

J Rice

Running through the dark  
So unprepared  
I know who you are  
So I'm not scared  
You can take my life  
but I'll be back

And when you think you're safe  
I'll be there  
You'll never see my face  
but I'll be there  
When you think you've won  
just turn around

Hi  
Hahahaha

Ohhhhh  
You know my name  
Ohhhhh  
You know my name

If you make it through  
All my traps  
Remember who I am  
And just turn back  
You never stand a chance  
Just give up while you still can

And when you think you're safe  
I'll be there  
You'll never see my face  
but I'll be there  
When you think you've won  
just turn around

Hi  
Hahahaha

Ohhhhh  
You know my name  
Ohhhhh  
You know my name

I'm so glad you're here  
Waited forever  
The your smell of fear  
Is worse than ever  
Wait, what is this  
That's not suppose to happen

Ahh noo  
I'll be BAAAACK  
I'll be back

You know my name  
You know my name

You know my name
