

You Save Me

J Rice

I never thought I'd find it
But it's always been clear
All this time that I've been tryin'
You were standin' right here
I never thought I'd go far
And all this time I've been fightin'
'Cause everything was so hard
You didn't give up on me, baby, no

I know you got me
There's nothin' like your love
You know I got you

And if I could stay, I'll stay here forever
And if I could be here, we'll be here together
Did you know that you save me?
Did you know that you save me from the fall?
Did you know that you save me?
We've been through it all
And I owe it all to you, I owe it all
I owe it all to you, I owe you all

I know that you rock with me
You know I'll be rockin' with you
You know that you rock with me
You know I'll be rockin' with you

Needed to be reminded
'Cause it wasn't all clear
No reason to be hidin'
'Cause you're standin' right here
I just wanna go far
All this time I've been fightin'
'Cause everything is so hard
But you won't give up on me

I know you got me
And there's nothin' like your love
You know I got you

And if I could stay, I'll stay here forever
And if I could be here, we'll be here together
'Cause did you know that you save me?
Did you know that you save me from the fall?
Did you know that you save me?
We've been through it all
I owe it all to you, I owe it all
I owe it all to you, I owe you all

I know that you rock with me
You know I'll be rockin' with you
Know that you rock with me
You know I'll be rockin' with you
I know that you rock with me
You know I'll be rockin' with you
Know that you rock with me...
