

# Bad as Me

Jace Everett

I've been seeing things  
I been hearing screams  
Having twisted dreams  
I don't believe in  
Baby now  
Baby's just as bad as me

She can talk the talk  
Make you walk the walk  
Then she gets you off  
I can't believe in how  
Baby's back  
Baby's just as bad as me

I'll drag my ass through broken glass  
To taste her salty skin  
I'll sell my future, burn my past  
If she'll let me in again

Kept it locked away  
Here's my rainy day  
See what I got saved?  
My baby now  
Baby's just as bad as me

When she leaves a room  
Don't know what to do  
It's all gloom and doom  
Baby now  
Come back and set me free

I'll drag my ass through broken glass  
To taste her salty skin  
I'll sell my future fuck the past  
Here I come again  
...
