

Doin' Nothin' With You

Jace Everett

Early evening that easy feeling
Only you and me
Come here closer and let me hold you
Don't have to say a thing

We both work hard too many hours
Girl and now this time is ours
And it sure mean something
Doin' nothing with you

So lay down lady
Right here next to me
Slow down baby
What will be will be
There's at least a thousand things tonight we oughta do
But it sure be something
Doin' nothing with you

That sun is sinking girl I been thinking
What a beautiful sight
You standin' there, lettin' down your fear
You know what's on my mind

You get the glasses, I get the wine
Whatever comes next it'll be just fine
And it sure be something
Doin' nothing with you

So lay down lady
Right here next to me
Slow down baby
What will be will be
There's a least a thousand things tonight we oughta do
But it sure be something
Doin' nothing with you

There's a least a thousand things tonight we oughta do
But it sure be something
Doin' nothing with you

Yeah it sure be something
Just doin' nothing with you
