

Rescue Me

Jace Everett

I came up from Texas where the wind never stops
It pushes the dust and dirt, even the rocks
I lit out so long ago, but that wind never stops

Nashville was nothing like I'd ever seen
They make things and break things even little boys dreams
Guess I got a little lost were you looking for me

Won't you please
Rescue Me
Lift me up
Set me free
I've been down here on my knees
Praying someone like you
Would come rescue me

I might need a haircut, I sure need a shave
It's hard to move on, standing in your own way
I've been walking in circles, day after day after day

Won't you please
Rescue Me
Lift me up
Set me free
I've been down here on my knees
Praying someone like you
Would come rescue me

I'm drinkin' a cold one, and counting the scars
The songs and the memories that still break my heart
Guess I'll spend one more night alone
Wondering just where you are
