## **Outsiders**

**Jack Bruce** 

From a star so warm Somewhere in the maze Blown across the dark To carry on our days

People of the sky
People of the waves
Landing in a place
That we couldn't save

Clues for tomorrow Lost in ambition

Outsiders
Space riders
Outsiders

We can't recall the time Maybe long destroyed And another race Journeys through the void

People of the stars
People of the sun
Now we've come so far
Seems the dark has won

Clues for tomorrow Lost in ambition

Outsiders
Space riders
Outsiders
