

# I Never Felt Like This

Jack Scott

Well, bless my soul 'cause it's a-happened to me  
The girl with the big blue eyes  
One little kiss was a-heaven a-bliss  
And I never felt like this  
Well, my face got red and then I started to sweat  
And there were chills up and down my spine  
And then the one little kiss was a-heaven a-bliss  
And I never felt like this  
Stood there petrified and I got electrified  
When she pressed her lips to mine  
So I packed my clothes and I hit the trail  
And a good golly baby she's a-right on my tail  
I don't give a worry and I don't feel sorry  
'Cause I never knew what I missed  
And then the one little kiss was a-heaven a-bliss  
And I never felt like this

It was a solid night, the moon was big and bright  
Just like I wanted it to be  
Then she took me in her arms, sat me on her knee  
And I knew little baby was a-meant for me  
Oh, I don't give a worry and I don't feel sorry  
'Cause I never knew what I missed  
And then the one little kiss was a-heaven a-bliss  
And I never felt like this

'Cause he never felt like this  
'Cause he never felt like this  
'Cause I never felt like this
