

# World's Apart

Jackie Boyz

She came to me in a dream  
There was a very part that'd kill ya  
To tell me what was us, never was.  
Baby, how did we go under.

Shot through the heart.  
This bullet is too hard  
Now I'm caught and I'm bleedin  
And who would believe it

There's a beating in my heart  
And it's tellin me were worlds apart.  
I know, good things don't last long.  
I know...  
Because were worlds apart  
Because were worlds apart  
Because were worlds apart  
If you believe in me,  
Like I believe in you,  
Well never have to go further  
Than worlds apart.

I was awoken by your sound.  
You scream so loud.  
My cell phone, she must have discovered.  
Voicemails saying that I love you  
Always thinking of you.  
Somebody call 911  
Cause I'm

Shot through the heart.  
This bullet is too hard  
Now I'm caught and I'm bleedin  
And who would believe it

There's a beating in my heart  
And it's tellin me were worlds apart.  
I know, good things don't last long.  
I know...  
Because were worlds apart  
Because were worlds apart  
Because were worlds apart  
If you believe in me,  
Like I believe in you,  
Well never have to go further  
Than worlds apart.

Falling apart  
Falling further  
Falling from her  
Falling worlds apart  
Falling apart  
Falling further  
Falling from her  
Falling worlds apart

There's a beating in my heart

And it's tellin me were worlds apart.  
I know, good things don't last long.  
I know...  
Because were worlds apart  
Because were worlds apart  
Because were worlds apart  
If you believe in me,  
Like I believe in you,  
Well never have to go further  
Than worlds apart.
